			<p>state as a whole.</p> <p>How do we institute quality improvement within EMS agencies? Looking from a broader view to benefit the entire crew and how roll-out in the field is impacted.</p> <p>Looking at EMS agencies by region. Looking at the number of actual available trucks in a region, licensed EMTs, Paramedics, etc. in the region and the actual number that are working. What is leading to slower response times, etc.? Anything we do will have evidence-based work.</p> <p>Statewide sending and receiving no matter which hospital we go to. (Debbie Berry)</p> <p>Data should drive where the work should be.</p> <p>Lacy Shumway will look and see if she has access to the reports they used to get. If not, put together the information you want/need and we can get it for you.</p> <p>Executive Director Slone - hoping we are getting access that you all may be able to get those reports yourself but that's something we are looking into.</p> <p>Alex Kuhn - mission lifeline data criteria set that is automatically built in that we could use and be accessible.</p> <p>Dr. Lubbers provided the link for the old reports on the KBEMS website.</p>
