

MEMORANDUM

TO: KY Licensed Ambulance Services and Personnel
FROM: Morgan Scaggs, KYEMSC Project Director
DATE: March 12, 2021
RE: Use of a t-piece resuscitator and KY Scope of Practice

In response to a request from the KY EMS for Children Program, the KBEMS Medical Oversight Committee provided clarification and confirmation on the following issue.

The use of a device with adjustable settings for peak inspiratory pressures (PIP) and peak end expiratory pressures (PEEP) for pediatric patients is limited to advanced level providers (AEMT and Paramedics) under the Kentucky EMS Scope of Practice.

This would include devices such as the Neo Tee Infant T-Piece Resuscitator by Mercury Medical.
